WHIPPING POST

My husband showed me a sample copy of the Whipping Post that arrived yesterday. I read the first story about the poor lady undergoing torments by her husband and friend. If you need stories, perhaps you can use this true tale that happened to me. One evening awhile back my husband and I decided to go out to the local night club for drinks. I decided to have a little fun with him that night, so before we left I gave myself a two quart enema. I then inserted a butt plug to hold it in. Well, right in the middle of some well chosen conversation with some friends of my husbands, I popped the plug. It was damn near an explosion. Water and shit went all over myself, the chair, my husband's pants, our shoes, and the floor. He was so embarrassed his face turned beet red. He leaned over to me and softly stated that I would dearly pay for the episode that had just taken place. I was really scared and excited all at the same time. When we finally got home I didn't know whether to hid in the bathroom or take what was coming to me. My husband shut me up in the bedroom and that settled that. It seemed like I sat on the bed waiting for days. When he finally came into the room all he had with him was a can of shaving cream, a razor, and a pair of scissors. He handed me the scissors and told me to cut off all my long beautiful long hair. He had a pair of wire clippers in his hand and threatened to clip off my nipples if I didn't start cutting. Well, I clipped away until all I had left on the top of my head was about like a man's crew cut. He then lathered up my head and handed me the razor. He told me to start shaving until I was completely bald. To add to this humiliation he then took pictures of this. When at last I was completely bald he hung me. He tied my hands and arms be-

hind my back, put a rope around my neck, and hung me from our bedroom door hinge. He would then pull my feet out from under me. I would almost choke to death before I could regain my balance. When he was tired of this he went back to the night club and left me hanging in my shame. If this night of torment wasn't enough punishment he would continue it the next day. While we were downtown shopping at a very busy department store, he pulled off my wig. There I stood with my bald head shining in front of all those shoppers and I wanted to just die. Out of all that has happened I learned never to play jokes on my husband. Thank-you for your time in reading this. I have enclosed a couple of pictures that were taken at the time. You may have them also.

Dear Adult Co.

My Master and mistress have ordered me to write to you and tell you and tell of how I must serve them. I was introduced to my part time life as a submissive sex slave by Norma, a woman I met several years ago. After several rather normal meetings during which we enjoyed sex, she began to get more demanding of me. One night after I had done everything she asked, for as long as she asked, she suddenly told me to get dressed and get out - before I had a chance to get satisfaction. I protested and she threatened to scream if I didn't get out immediately. I asked her what I had done to make her treat me this way - she told me to just get out, that she'd meet me the next afternoon and explain. I did as she commanded and dressed, still very much aroused, confused, and humiliated. The next afternoon I meet her at the bar where we usually met. Before I could say anything, she asked me what I had done about the problem I had when she last saw me. I blushed and told her it just went away. She laughed and said she bet it didn't go away until i'd used my hand on it awhile. (She was right.) I asked her why she treated me that way. She said that from now on if I was to see her it would be Strictly on her terms. I must obey her immediately no matter what she asked, and most time my only reward would be the pleasures of serving her. She said she figured that the fact that her treatment the night before hadn't turned me off, but had in fact seemed to futher excite me - and the fact that I had returned to meet her - meant that I was willing slave. She told me to think about it, and if I was a willing to continue with her to be at the bar the next afternoon at 5 PM. Futhermore, she said that if I decided to meet her I was to show up with no shorts on, but to have them in my pocket instead. I thought about it, and the idea of being her slave did excite me, so I decided to comply

with her demands for awhile at least. The next afternoon after work I stopped in the Mens Room and took off my shorts, folded them and put them into my pocket. When I got to the bar Norma was sitting in a booth with another attractive woman. She called me over and introduced me to Helen. She told Helen that I was her slave and related the whole story of our meeting the night before last. I was very embarrassed as she told everything she'd had me do do, and how silly I looked getting dressed with the erection and the whipped puppy look. Helen seemed amused by my humiliation. Next Norma asked where my shorts were. I told her they were in my pocket and she made me give them to her. She put them in her purse and took out a pair of panties which she told me to put on. She must have bought them special for me as she is slim and I am a pudgy 220 lbs. I went to the mens room and put on the panties. I was suprised that I was excited to be wearing the smooth thin garment. I returned to the table and Norma asked how I felt. I told her I felt silly. She said I'd get used to wearing them - that hereafter I must always have them on when I came to her. I told her I couldn't, my family would find out or find the panties, if I had an accident or something I'd be found out, etc. She said I'd work out something - that I'd better have them on every time I visited her. When she said she bet I was excited by the very thought. Tho I was, I denied it. I was sitting opposite Norma, next to Helen. Norma told Helen to check and see if I was excited. Helen told her I was. Norma made me put my hands flat on the table and then told Helen to pinch me for lying. She about made me cry out right there by the force with which she pinched the head of my erect penis. They both laughed and Helen said it had been fun, but she had to get home and fix her husband's dinner. She left, and I followed Norma to her apartment. As soon as we were in the apartment she made me strip down to the panties and then kneel in front of her and

remove her hip huggers and panties. Then for almost an hour she made me perform analingus and cunilingus on her, telling me precisely how I was to do it, and making me keep telling her how much I enjoyed it and how sweet she tasted. Before I left, she made me get rid of the erection I'd had all evening by masturbating. She then gave me my shorts but didn't let me put them on, and sent me on my way. We met twice a week or so for about 6 months. Sometimes Helen would meet us at the bar, but she never came to the apartment. One day Norma was telling Helen how well she'd trained me to serve her and wouldn't she like to try me. Helen said her husband Ron did fine, except that he wouldn't give her head after they'd made love. Norma told her I'd do it anytime she told me to. Helen said she'd ask her husband if it was ok to have me over to serve her some night. The next time we met, Helen said that Ron didn't want any other man in his house with his wife and that was that. Norma said to tell him I was a slave, certainly not a man. She suggested they have me over and let Ron "test" me. Helen said Ron was always after her for not letting him get off in her mouth, and I would do that. Norma said sure I would. I had never done that, but didn't protest as I didn't want to irk Norma. Helen said she'd try that approach with Ron. The following day I met the ladies again and Helen said Ron would talk to me. Norma wished us luck and I followed Helen home. Ron was sitting in the living room drinking a beer. He is about 6' 2" and 180 lbs. Helen introduced me as Jo-Jo, the way she and Norma referred to me. Ron said he heard I was a slave and would do anything they said. I said this was true. He asked if that included him, and letting him in the mouth. I said yes if that's what he wanted. He said I was to address him as Master Ron and her as Mistress Helen. I said ok. He said "yes Master Ron". I said "I'm sorry, yes Master Ron". He told me that they had a ping-pong paddle they'd use on my bare ass if I didn't obey them and always act like I enjoyed it. Then he told me to strip and

kneel in front of them. They both made fun of my pot belly and my small tool. He told me to open his pants and see what a real man was built like. I clumsily took out his soft sex. They both continued to make fun of me and then made me take off his slacks and shorts and continue. Soon they started necking and petting and he started to get excited. He then directed me to work on him vigorously and continuously. He said I was pretty good and must have alot of experience. I told him I had never done that before. He laughed and asked how come I was so good then. I told him I had many my self. He didn't believe me, but told me to continue. Helen seemed to particularly enjoy watching me give him head, and kept reminding him to be sure and tell her when he was coming, as she wanted to see the expression on my face and see me swallow it. They continued to neck while I continued mychore. Her blouse was now open and her bra was unhooked. In a little while he told me to speed up, and started thrusting with his hips. They stopped necking and both just watched me. Soon he said hewas about to come and she could hold it and feel if she wanted to. She did, and soon I felt it. I slowed up some, but continued until he relaxed. He told me to be sure and milk him down, and not to loose any of the stuff their. I carefully followed his direction and then looked up at Mistress Helen while I swallowed. She shuddered and said she couldn't see how I could do that. He said I loved it, and made me assure her I did. As he got softer, some more oozed out, and he made me take it. She said it was now her turn and she could hardly wait. They had me remove her skirt, pantyhose, and bikini panties and then start on her while they continued to neck. They gradually removed the rest of their clothes. Soon she whispered something to him and he told me to stop and back away from the sofa. She got up and left the room and he told me to lie on my back on the end of the sofa with my legs dangling over the end. She came

back shortly and climbed right up on the sofa so that she was squatting over me with her sex in my face. I could immediately tell where she'd gone and he confirmed it by asking her if she'd dried herself. She said of course not, why waste the paper when Jo-Jo's was available. They both laughed, while I continued my new task. As they necked, she moved around such that I wet her whole beautiful pussy, and it in turn wet my whole face. I soon felt myself about to climax. I didn't know what to do - I was afraid it might spurt far enough to get on her back. Finally I just let it happen and it just got on me. I continued giving her head. I guess he was nibbling on her shoulder when he spotted what happened. He got quite angry and wanted to know when that happened. I told him I couldn't help it and that I was sorry. He said I'd be alot scerrier, and for Helen to let me up so I could go down to the basement and bring up a ping pong paddle. When I got back he told me to give it to Helen and to stank in front of her, facing her left, and with my hands on my knees. He said she would give me 15 strokes for coming without telling them in advance. I was to count the strokes for them. She hit my protruded rear end and I said "one". He said she was to paddle me, not give me love taps and that one didn't count. She then really swung into it. By 15 my whole rear burnen and they kidded about how red it was. He told me if I ever did that again it would be 25 strokes, and that he would give them. I assured him I'd tell them before hand if it happened again - and I always have. After a short time of working on her again, they made me follow them into the bedroom and kneel by the bed while they made love. When they finished she had me work on her alittle longer and then told me to leave. I asked if I could wash up in the bathroom. She said no- just to dress and leave. Even tho I wiped it off with my hankerchief, I could smell her on my moustache all the way home. I was afraid to

stop anywhere for fear it would be obvious to everyone. I serve Master Ron and Mistress Helen in just about the same amanner once every week or two when they summon me. Anyone else in New Jersey who'd like a sex slave for an afternoon or evening please write the code number below.→ S-L-A-V-E

Male mid 30's docile to the wants and needs of a dominant rules your methods and rules B/D, S/M, toilet slave. Mistress any age shape or race, couples if female is dominant. AD6034

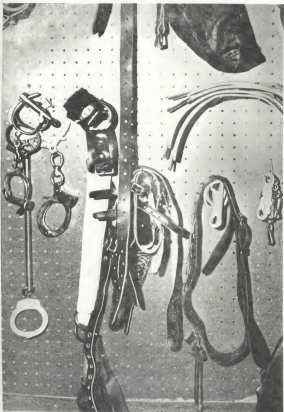

I am a male slave and I love being dominated by either females or males. I recently visited one of my male master friends and he has ordered me to send this description so that others can know what I have been through. My master is thirty-eight and really well built. On this occasion I drove to a motel parking lot and met Al there as specified. I got into his car and he drove to his place. We pulled into the garage and the door closed behind us when Al ordered me to strip except my jock. When I had done this he handcuffed my wrists together and locked a collar with leash around my neck. Then he led me into the house and tied me down over a marble coffee table. The marble felt cold against my bare skin and my penis erected against the tight jock. Al gagged me with the donut gag that he'd gotten from the Whipping Post and proceeded to warm my ass with a wide leather strap. He kept this up until my buttocks was bright red and I was moaning into the gag. Finally he released me and led me to the bedroom where he tied me spread-eagled face up after ripping off my jock. He blindfolded me and then I was totally naked and helpless with my penis and balls exposed for his attention. He tied a leather thong around my balls and ran it through a ring on the ceiling and hung a boot from it. He dropped a weight into the boot causing a strong pull on my balls and continuous pain to me. Then he got out the penis whip (also from W.P.) and started whipping my erect penis and stretched balls. Each lash caused me to writhe in pain and every movement increased the pull on my balls. He continued until I thought I would climax but he stopped, denying me this pleasure. Al got a pair of tweezers and proceeded to pull out my pubic hairs, one at a time. If you haven't experienced this, believe me, you can feel it! Before he stopped it seemed like he must have pulled out a hundred. After letting me lie there wondering what would happen for awhile he lit a candle and started dripping hot wax

on my nipples, then running a trail down my body. Each drop burned as it hit but cooled rapidly. As the burning drops approached my pubic region I really twisted and moaned. Al kept it up until my balls and penis were almost completely covered with wax. Then he crawled up on me and removed the gag. He shoved his hard penis into my mouth and forced me to suck him to climax. After a break for dinner which I had to prepare and serve naked, a friend of his came over. They hung me up by my wrists and whipped me some more, one using the penis whip on the front and the other a belt on my ass. After this and other assorted torments tied me across a foot stool. Al shoved his penis up my rear while I was forced to suck the friend to climax. As a final humiliation I was forced to kneel before them and masturbate with a dildo taped in me. They sat back sipping drinks and making humiliating comments until I came. I'd like to see similar letters from other male slaves to compare experiences, so the rest of you send in your story for future issues.

My husband and I enjoy bondage, both for pleasure and fun but we do not go for the real rough things some of your letter writers claim and I wonder about some of them. We have three couples in our group and spend weekends and other times together when we can, no long set of rules but mainly common sense. We have a back yard that is very private. My husband put up a long cable about a hundred feet on this steel pulley and ring as neither of us gets the exercise we need we are sometimes hitched to this cable, a chain is padlocked around the waist, runs between the legs, and locked to the ring. This chain can be as tight or loose as you wish. We sometimes strip the other before doing so, the hands are always tied, the length of time you are on this is determined by the other person so if you are really mean sometimes you will usually get it back in spades. While on the run I don't see any sense in standing so we walk and get the exercise we need and it has made us feel much better. This isn't really what I wanted to write to you about but I was so proud of myself because I built something myself. I've never seen or heard of anything like it. I had four by eight, three eights plywood mounted in our cellar about five inches from the floor. It was real solid at the right height, and in the middle I cut an inch and five eighths of a hole. I had four hard, flat wooden sticks made for myself about one inch wide, six inches long with a slot in each one. These were attached to the other side of the board with bolts and wing nuts from four angles so that when the cock was pulled through it they slid forward and tightened even if he is not tied and then makes it possible to get away. Any person cannot reach over or around the board so it's good for minor

punishment. There are also lots of things girls can do. I also drew an outline and put in metal eyes that can be found in the hardware store. I simply took some rope and laced him up just like you would a shoe and it is very effective. That way the only thing he can move is his toes. I had my husband on the board awhile back and because he had made some nasty remark I simply left him on it for over six hours. I called the girls over and we had a nice visit, made some hamburgers, kept him well teased, and fed him cold beer every half hour. I knew that I would pay for this sometime and I sure did. He made a gadget by taking the insides out of a personal vibrator and inserting a small steel rod, then filled it with epoxy cement and on the rod he mounted an old A C Gilbert vibrator that runs on house current. When your legs are spread and when you are kneeling, hooks run on both sides of your legs from the knees to the ankles and these are laced to the board. He fooled around with this for weeks asking me to try this and try that never using it but just tinkering. I had thought he'd more or less forgotten about the dirty trick I'd pulled. One Saturday afternoon he asked me to get undressed and let him try it for adjustments and I was stupid enough to go along with him. When my husband had my legs spread and laced down he then carefully inserted the vibrator. The other end was held to the board by a hinge. I was quite interested and the first thing I knew my hands were tied behind my back, my elbows tied together, and he simply walked away. I tried my best to get off the machine but couldn't. After fifteen or twenty minutes went by I was hollering for him to let me off so he came down and gagged me. Shortly the two fellows just happened to drop by. They said that the girls were shopping but then the bulb began to light and the nut had planned the whole thing right along. The boys simply picked up the board and carried me outside and placed me on the picnic table. He ran

an extension cord outside, got some beers for the fellows, and arranged the lawn chairs. There I was, and they decided I looked to sad so they blindfolded me. He had some kind of nob gadget that can be turned to make the thing hum or really vibrate. Before they were through I was given the works. After several times one of them got the bright idea to attach a nylon cord up from the vibrator to my nipples. They are rather large and the cord could be tied on well. I really about it and thought to myself that I would never give in again but try as I did to keep my mind on other things it didn't work. When you vibrate inside and outside the cords sent like electric currents to breasts and I couldn't help myself. I just about exploded and more than once. But the others have a surprise coming to them and they're gonna get it. We usually draw names for the evening or the weekend and the victims name goes back so there is a possible chance you could get drawn more than once. So far that has only happened to one person. Keep up the good work on your book. I wish it came out more often.
